 **Communication, language & literacy**

Speaking, listening, reading and writing are crucial to children's early development. Showing children the importance of language through fun activities and encouraging them to engage with a wide range of texts helps to ignite a lifelong curiosity for learning.

 **Creative expression**

Creative expression allows children to communicate their ideas and develop their imagination through art and design, music, dance and drama. This important curriculum area brings together skills and cognitive processes from across the whole curriculum.

 **Mathematics**

At an early age, it is important to help children recognise how mathematics impacts everyday life. Through games and activities, we can introduce children to mathematical language, thinking and concepts that they will need when they start their primary education.

 **Physical development**

Our curriculum encourages children to develop movement skills through play, helping them to develop positive attitudes towards exercise and laying the foundations for healthy, active lives.

 **Personal, social & emotional development**

This area is central to children's lives. It underpins their wellbeing and attainment in all other areas of their learning. This area helps them to develop social learning and friendships, regulate their emotional responses and respond to the needs of others, and develop self-esteem and confidence.
